<p>P25-49 図-6.20</p>	 <p>The diagram shows an elevation profile from 桃源台駅 (Toshodai Station) at approximately 730m to 大涌谷駅 (Oyugoya Station) at 1050m. The profile passes through 姥子駅 (Rohko Station) at approximately 880m. The curve is smooth and continuous, indicating a correct representation of the terrain.</p>	 <p>The diagram shows the same elevation profile as the correct one, but with a sharp vertical jump at 姥子駅 (Rohko Station). This jump is circled in red, indicating it is an incorrect representation of the terrain.</p>
